os, oris n	mouth
os, ossis n	bone
osseus, a, um	bony
palatīnus, a, um	palatine
palātum, i n	palate
pancreas, ātis n	pancreas
pancreaticus, a, um	pancreatic
paries, ētis m	wall
parietalis, e	parietal
pars, partis f	part
parvus, a, um	small, little
patella, ae f	patella, knee-cap
pelvīcus, a, um	pelvic
pelvis, is f	pelvis
pes, pedis m	foot
petrōsus, a, um	petrous, petrosal
phalanx, ngis f	phalanx
pharyngēus, a, um	pharyngeal
pharynx, ngis m	pharynx

plexus, us m	plexus
pollex, ĩcis m	thumb
pons, pontis m	bridge
posterior, ius	posterior
primus, a, um	first
processus, us m	process, projection, outgrowth
profundus, a, um	deep
proximalis, e	proximal
pterygoideus, a, um	wing-shaped
pubes, is f	pubis
pulmo, ōnis m	lung
pulmonalis, e	pulmonary
pyloricus, a, um	pyloric
pyrāmis, ĩdis f	pyramid
radialis, e	radial
radius, i m	radius, radial (spoke) bone
radix, ĩcis f	root
ramus, i m	branch
raphe, es f	seam, rhaps
recessus, us m	recess, pocket
rectum, i n	rectum
rectus, a, um	straight
regio, ōnis f	region, area
ren, renis m	kidney
ruber, bra, brum	red
sacralis, e	sacral
scapūla, ae f	shoulder blade
scapularis, e	scapular
sella, ae f	saddle
septum, i n	septum, dividing wall
simplex, ĩcis	simple
sinister, tra, trum	left
sinus, us m	sinus
skelēton, i n	skeleton
sphenoidalis, e	sphenoid
spina, ae f	spine, spinous process
spinosus, a, um	spinous
splen, splenis m	spleen
stapes, ědis m	stapes
sternum, i n	breast-bone
suprapatellaris, e	suprapatellar
subcutaneus, a, um	subcutaneous
sulcus, i m	shallow groove
superficialis, e	superficial
superior, ius	superior
suprarenalis, e	suprarenal
sutūra, ae f	suture
talus, i m	ankle bone, talus
tegmen, ĩnis n	roof
temporalis, e	temporal

tendo, ĩnis m	tendon
tenuis, e	delicate
teres, ětis	round and long (of muscles and ligaments)
thoracicus, a, um	thoracic
thorax, ācis m	chest
thymus, i m	thymus
thyroideus, a, um	thyroid
tibia, ae f	tibia, shin-bone
